15A. NAME AND TITLE OF SIGNER (Type or print).				16A. NAME AND TITLE OF SIGNER (Type or print) A.JOHN SORGINI, JR			
15B. CONTRACTOR/OFFEROR		15C. DATE SIGNED		16B. UNITED STATES OF AMERICA		16C. DATE SIGNED	
(Signature of person authorized to sign)				BY _____ (Signature of Contracting Officer)			

1. The purpose of this amendment is to correct a discrepancy in Section L - Instructions, Conditions and Notices to Offerors, dated 12 February 2004 in Request for Proposal (RFP) No. FA8726-04-R-0002.

2. RFP No. FA8726-04-R-0002 is amended as follows:

Replace Section L para. 4.1.1 with the following:

4.1.1 Standard Form 1449 - Solicitation/Contract/Order for Commercial Items

The offeror shall fully complete Blocks 12, 17, and 30, including required codes under Block 17. Please identify the county associated with your address as completed in Block 17a. Signature by the offeror on the SF 1449 constitutes an offer, which the Government may accept.

Do not complete Blocks 23 and 24.

Regardless of the number of equipment categories proposed/awarded, there will be one ceiling price **for each contract** that is awarded. With the exception of non-recurring engineering, ceiling prices will not be established for individual CLINs. The Government will calculate the contract ceiling price as follows (all numbers will be rounded to the nearest dollar):

1. Calculate the sum of the sumproducts² of your B-1 Table [Modules and Kits] prices at the BEQ quantities (Attachment L-6) for all ordering periods (FY04-09) for all equipment categories that you will be awarded. If you are proposing a baseline different from that identified in the RFP, the ceiling price may be adjusted by increasing the quantity of modules and/or kits to reflect the impact of the requirement to maintain not more than two (2) versions of each module and/or kit in the field in accordance with the SOO.

2. Multiply the results of step 1 by 1.25 to accommodate unplanned (e.g., wartime) tasking.

3. Calculate the sumproduct² of your B-2 Table [Retrofits] prices at the BEQ quantities (Attachment L-7) for all equipment categories that you will be awarded.

4. Multiply the results of step 3 by 1.25 to accommodate future retrofits.

5. Calculate the sum of steps 2 and 4 above.

6. Use the result of step 5 as the contract ceiling. Note that the sum of all awarded contract ceilings shall not exceed \$500M.

² Sumproduct is a standard spreadsheet function that multiplies corresponding components in the given arrays and returns the sum of those products.
